AV Tech Innovative Media: Advanced Queue & Access Management

Electronic Design, Hardware, Software & Manufacturing.

Engineering Order Out of Chaos

We specialize in end-to-end electronic design and manufacturing. Our systems are not just assembled; they are engineered to optimize customer flow in banks, hospitals, government offices, and public spaces.

- Custom Hardware Design
- Integrated Software Solutions
- Durable Manufacturing
- Scalable Architecture

The Essentials Series | WMQ-1L

Ideally suited for single-counter environments like clinics or small dispatch offices. This entry-level package offers plug-and-play simplicity with high-visibility LED readouts.

- 1 Unit Dotmatrix Display (High visibility)
- 2 Unit Counter Call Buttons (Tombol Loket)
- 2 Unit Counter Call Buttons (Tombol Loket)
- 100 Tickets (Starter roll included)

Includes Free Background Design

Expanded Essentials | WMQ-2L

Designed for multi-service environments. This upgrade supports three distinct service points while maintaining the straightforward LED architecture of the basic series.

- 1 Unit Dotmatrix Display
- 3 Unit Counter Call Buttons (Scalable architecture)
- 100 Tickets (Starter roll)

Key Feature: Button Expansion Ready – The system grows with your staffing levels.

The Kiosk Advantage | Touchless Automation

Moving beyond manual ticket rolls, the Intermediate Series introduces the professional Standing Kiosk tower. Featuring "Hover-to-Print" technology, it offers a hygienic, contactless experience for visitors.

Hygienic Touchless Tech

Intermediate Series A | WSQ-1LU & 2LU

A streamlined automated solution. The central Dotmatrix display manages the room, while the thermal printer kiosk manages the flow.

Touchless Sensor
(in Pantone 485 C)

- 1 Unit Standing Kiosk (with Touchless Sensor)
- 1 Unit Main Dotmatrix Display
- 3 Unit Wireless Call Buttons
- 1 Unit Integrated Thermal Printer

Intermediate Series B | Counter-Level Clarity

Eliminate confusion at the counter. These packages add dedicated mini-displays at each service window, guiding visitors directly to the correct agent.

Model WSQ-2LC

Standard 7-Segment LED

Model WSQ-2LD

Enhanced Readability Dotmatrix

The Multimedia Shift | WSCQ Series

Transform 'wait time' into 'engagement time." By replacing the LED board with a 32-inch LED TV and a powerful Mini PC, you can display queue numbers alongside corporate videos, live TV, or digital signage.

CORE UPGRADE

- **Visual**: 32-inch LED TV
- **Processing**: Intel NUC Mini PC (or equivalent)
- **Software**: Advanced Queue Software included

Hybrid Multimedia Configurations

The best of both worlds. A multimedia experience for the waiting area, paired with high-contrast LED indicators at the service desk for immediate wayfinding.

WSCQ-CDS: TV Main Display + 7-Segment Client Displays

WSCQ-CDD: TV Main Display + Dotmatrix Client Displays

The Flagship | Interactive Touchscreen Series

The ultimate in self-service. The standard button kiosk is replaced by a sophisticated **Touchscreen Console**, allowing visitors to navigate a menu of services before receiving their ticket.

Ideal for banks or government offices with multiple distinct service departments.

Ultimate Specification | WTSQ-LD

Our most comprehensive solution. Combines interactive input, multimedia broadcast, and precise counter-level guidance.

- 1 Unit Kiosk with Touchscreen Interface
- 1 Unit 32-inch LED TV (Main Display)
- 1 Unit Mini PC + Quatin Display)
- 1 Unit Mini PC + Queue Software
- 4 Unit Client Displays (Dotmatrix)
- 4 Unit Wireless Call Terminals

© NotebookLM

Exterior Access Control | Wireless Parking Gate

Secure, automated entry management. Our parking barrier system operates wirelessly to reduce installation complexity.

- Manless Operation
- Barcode Scan Integration
- CCTV Monitoring Compatible
- Complete Bundle Available

The AV AV Tech Standard Promise

Every system we ship is backed by our commitment to connectivity and support.

Free WiFi Router Included

1 Year Full Warranty

Free Background Customization

Fully Expandable Architecture

Transform Your Customer Experience

Whether you need a simple counter solution or a multi-department touchscreen network, AV Tech has the hardware and manufacturing expertise to build it.
